

WALKS FROM WWW.MIKES-WALKS.CO.UK --- find mikeswalks on facebook

Where	Hutton Roof and Farleton Fell		
Distance	12.2km / 7.6 miles		
(total) Ascent	330m / 1100ft		
High Point	284m / 932ft		
	Grid Ref	Dir	
1	SD569787	S	From the church head south down the lane and through the village
2	SD570780	W	At the footpath sign leave the road and follow the driveway through the new buildings which becomes a farm track at the rear
3	SD566777	SW	Go through the waymarked gate to the right of the track and follow the path uphill
4	SD565776	SW	Cross the wall at the stile
5	SD564775	SW	Cross another wall at another stile
6	SD559768	SW	At the field corner, leave the fields and sheep sheds on your left and walk through the trees, sticking close to the fence on your left, and past the low stile near the end
7	SD558767	N	When you come to the stone wall, head North on to Hutton Roof Crag, keeping the wall close to your left, until...
8	SD558 770	NW	The eagle-eyed amongst you might notice 2 step-stiles close together in the wall at this point (Stones laid in the wall that stick out, to use as steps). Climb the stile and you should be able to pick out a faint path at this point. You are on access land here, and these paths are not rights of way so you won't find them on the map. Head along this path
9	SD556772	NE	When this path crosses another faint path on top of a low (ca 1m) but noticeable limestone scarp, take the path to the right. Around SD557774 you need to bear off to the left away from the scarp, coming to a path at...
10	SD557774	SW	Take this path to the left towards the trig point
11	SD556774	NNW	From the trig point, take the path that heads NNW, which in places follows the grikes through the clints then out into the open where you can see a cairn in the near distance
12	SD555780	N	When you've had your lunch at the cairn (and why wouldn't you, a good place to stop on a sunny day) follow the path north again. This very quickly brings you to a small area of limestone pavement and you should be able to pick out the path which goes round the right of this, then there is a short drop down at the far side of the pavement onto an obvious path - take this to the left
13	SD549786	NNW	Cross the road at the stiles, past the microwave (really !) and follow this farm track up to the base of the small scarp
14	SD549792	W	Where the track forks. Take the left fork that rises gently across the face of the scarp and heads north once the scarp is crossed
15	SD548792	NNW	Take the left fork, the path running roughly parallel to the wall on your left
16	SD546799	NW	At the path junction take the left for heading NW and with the wall immediately to your left
17	SD542802	NW	At the path junction, go straight across and up to the cairn on Farleton Fell, straight in front of you, then come back to the path junction
18	SD542802	E	Take the path back to the left, following it round the side of Newbiggin Crag for some while
19	SD551 798	NE	Some way to the left of the path is a wall - head for this and follow it down to Newbiggin Lane
20	SD553800	SE	Turn right down Newbiggin Lane, taking the left hand fork at the first junction and the right hand fork at the second
21	SD563795	SE	Where the lane bends left, follow the track that carries on straight ahead
22	SD567790	SE	Join the road and head right, back to the church

RESOURCES

Car Parking	My route starts from outside St Johns Church SD569787 where there is some street parking available. Alternatively try street parking at SD550787 or use the Car park
-------------	--

WALKS FROM WWW.MIKES-WALKS.CO.UK --- find mikeswalks on facebook

	at SD553761 and use the footpath through Crag House to join the route
Toilets	None
Refreshments	None
Map required	Explorer OL7 English Lakes SE – click here to buy it from Amazon
Terrain	For the most part gentle, although limestone pavement always needs treating with respect if you value your ankles. The path up on to Hutton Roof is vague in parts and it is CROW access land, so you could end up wandering anywhere !
